

Brush Strokes

By Mary Baumgartner

February 2013 Vol. 6 No. 2

DREAM BOAT!

This is a vivid watercolor that has such unusual detail a viewer might consider it to have been airbrushed.

Many years ago the Classic Car Club would only allow cars of this vintage and condition to be shown in the annual car shows in Scottsdale, AZ, Hershey, PA, LaJolla, CA, and other locations.

I'm not sure how Sandy was influenced to paint this car in its entire splendor and to leave the highlights in exactly the right places, but having trained many years ago in the art of airbrush, if I hadn't seen her paint it, I would have sworn she had airbrushed the car.

Transparent watercolor is the perfect medium to paint metal, glass or grass, and surfaces that need many

"Stan's Dream" by Sandy White

layers to shine through. In addition to capturing the car and its many details, Sandy was also able to paint a very handsome senior

citizen who is about to embark on his voyage to show the car. I commend her for choosing the painting name since my husband Stan would have loved owning any kind of classic car. Unfortunately he passed on before he accumulated enough savings to invest in a car of this nature. But this is truly a tribute to his life since it was also his "dream." Observe the layers of Winsor Blue, Red, and Violet. Two more of Sandy's paintings, are also shown "Swans & Swirls" (above) and "Thinking of Sharing" (right).
